Kim,

I am uploading the files you have asked for into my Kim folder. It should be completed in the next ½ hour.

On the D412-809 project we have no paper copies of the drawings here, that should have been included in the 2 Vol. set I sent you. Check the sleeve of drawings close to that number I may have packed them together to save space.

I was holding on to the D212-818 documents until we had gotten the original paper copies from Amtech (as they did most of the documentation for that project), but I will send what I have.

If you have any other questions let me know.

Best Regards,

Kevin Barton

Hi Kevin,

Finally had a chance to look at these ECN's. I marked on them what was missing from the binder and/or CD on the ECN's and scanned them in. Take a look at them when you have a chance and see if you can provide the documents for me.

Thanks,

Kim Johnston
